More and more people are starting to ride bicycles in San Antonio and are riding greater distances.

For the past six months, San Antonio has been engaged in a big transportation planning effort, dubbed "SA Tomorrow." Part of that includes routes for bicycling.

According to the Alamo Area Metropolitan Planning Organization, there are at least 325,000 area residents who ride bicycles at least once a month. It's also estimated that eleven percent of riders bike to work or school.

"We're seeing an increase and hopefully through this updated study we will have a trend analysis to show how much it has increased since 2011," said Terry Bellamy, Transportation and Capital Improvements Assistant Director.

To get feedback from riders, an online survey was launched this week at
